

PARIS CERAMICS

Vix Blue limestone has extreme hardness, rendering it virtually impossible to work. With advancements in modern machinery, Vix Blue limestone can now be quarried from central France. The rarity of Vix Blue coupled with its unusual blue-gray coloring, beautiful shelling, fine grain and smooth surface offer dramatic individuality for a variety of settings.

Vix Blue limestone is available in approximate sizes:

16" x 16" x $\frac{5}{8}$ "

16" x 24" x $\frac{5}{8}$ "

Slab, custom sizing and custom cutting are also available.

Please call Paris Ceramics London on +44 (0)20 7371 7778 for more information, product usage, coordinating materials and other product options.
