

PARIS CERAMICS

Bushmilled Limestone was created by Paris Ceramics to give the effect of an antique flagstone floor. A selection of antique second surfaces and newly quarried stone is carefully chosen and sorted before undergoing a process of “distressing” and polishing until the desired finish is achieved. The final effect is a floor similar in beauty and variety to an antique floor. Bushmilled limestone is suitable for both interior and exterior use.

Bushmilled limestone is available in approximate sizes:

Random sizes	x ¾” thick
Random sizes	x 1¼” thick
Coursed lengths	x ¾” thick
Coursed lengths	x 1¼” thick
