

# PARIS CERAMICS

**Antique Jerusalem-** These ancient stones are the oldest of all the reclaimed floors Paris Ceramics provides. Up to five hundred years in age, Antique Jerusalem stone floors originated from the quarries in the southern Hebron Mountains near Jerusalem. The pre-industrial methods of shaping the flagstone in combination with centuries of wear and tear have made these surfaces unique from all others. Antique Jerusalem limestone is the stone of life.

Antique Jerusalem ranges in color from beautiful creamy buttery tones to gentle honey and corals. This is a truly random floor with no pattern and varying sizes. The thickness ranges from 1" to 1¼". Extremely hard and dense, this floor is suitable for most areas of the home.

**Antique Jerusalem Mosaic** is also available in approximately 1" x 1" tesserae messed back on approximately 12" x 12" sheets.

Please call Paris Ceramics London on +44 (0)20 7371 7778 for information, product usage, coordinating materials and other product options.
